## PRODUCT OVERVIEW

### Description:

1. TEL LINE jack
2. Handset Cord jack
3. REDIAL key
4. FLASH key
5. MUTE jack
6. Handset Cord jack
7. 0-9/\*/# key

## 1. SWITCH OPERATION

### LOCK switch

Use the keys provided in the package. The telephone allows all outgoing number if the key is on red point. It cannot dial any outgoing number when the key is on green point.

## 2. FUNCTION KEY OPERATION

### FLASH key (600ms)

In the on-hook mode, press this key to auto-hang up for 600ms, after that you can press **REDIAL** key or dial out another number.

### MUTE key

While you are on the line, if you do not want the remote party to hear you, just press and hold the **MUTE** key.

### REDIAL key

In the handset off-hook mode, press this key to redial the last dialed number.

## TROUBLESHOOTING GUIDE

**(Q) I do not hear any dial tone from the handset.**

**(A)** Ensure the handset cord is connected correctly to the handset cord jack at the base. Ensure you have plug in the telephone cable from the telephone to the wall socket correctly. If the problem persists, please check with your local dealer.

## DECLARATION OF CONFORMITY

The telephone complies with the essential protective requirements and objectives of:

- EC R& TTE Directive 1999/5/EC
- EC Low Voltage Directive 73/23/EEC
